Explanatory Statement

6. Resolution 4 - Issue of Options to Mr Stephen Bizzell

6.1 Introduction

The Directors have resolved to refer to Shareholders for approval the issue of 500,000 Options to Mr Stephen Bizzell exercisable at \$0.30 each on or before 30 June 2017 on the terms set out in Schedule 1 to this Explanatory Memorandum.

Approval for the issue of the Options is sought in accordance with Part 2E of the Corporations Act. In order for the Options to be granted to a Director, the requirements of Chapter 2E of the Corporations Act need to be observed. Subject to the Company listing on the ASX, approval for the issue of the Options is also sought in accordance with Listing Rule 10.11. If approval is given under Listing Rule 10.11, approval will not be required under Listing Rule 7.1.

6.2 Regulatory Requirements

(a) Chapter 2E of the Corporations Act

Chapter 2E of the Corporations Act prohibits a public company from giving a financial benefit to a related party of a public company unless the benefit falls within one of various exceptions to the general prohibition. One of the exceptions includes where a company first obtain the approval of its shareholders in general meeting in circumstances where the requirements of Chapter 2E in relation to the convening of that meeting have been met.

For the purposes of the Corporations Act, a “related party” is defined widely and includes a director of a public company.

A “financial benefit” has a wide meaning for the purposes of the Corporations Act. It includes the public company paying money or issuing securities to the related party. In determining whether or not a financial benefit is being given, it is necessary to look to the economic and commercial substance and effect of what the public company is doing (rather than just the legal form). Any consideration which is given for the financial benefit is to be disregarded, even if it is full or adequate.

The proposed resolutions, if passed, will confer financial benefits on Mr Stephen Bizzell (being a related party of the Company), and the Company seeks to obtain Shareholder approval in accordance with the requirements of Chapter 2E of the Corporations Act and for this reason, and for all other purposes, the following information is provided to Shareholders.

(1) **The related parties to whom Resolution 4 would permit the financial benefit to be given**

The financial benefit is being provided to Mr Stephen Bizzell, being a Director of the Company.

(2) **The nature of the financial benefit**

The nature of the proposed financial benefit to be given is:

- (a) the issue of 500,000 Options to Mr Stephen Bizzell, or his respective nominee, as referred to in Resolution 4;
- (b) the Options shall be granted for nil consideration;
- (c) the Options shall vest and be capable of exercise into fully paid ordinary Shares on the date that is three months after the date of issue;
- (d) the Options shall be exercisable into fully paid ordinary Shares at an exercise price of \$0.30 each on or before 30 June 2017, provided that the Options have not expired in accordance with their terms.

Explanatory Statement

(3) **Directors' Recommendations**

With respect to Resolution 4, all directors other than Mr Bizzell recommend that shareholders vote in favour of this resolution. As Mr Bizzell is interested in the outcome of Resolution 4, he accordingly makes no recommendation to shareholders in respect of this resolution.

The reasons for the above recommendations include:

- (a) the issue of the Options will provide Mr Bizzell with reward and incentive for future services he will provide to the Company to further the progress of the Company;
- (b) the Options are not intended as a substitute for salary or wages or as a means for compensation for past services rendered; and
- (c) in the Company's circumstances as they existed as at the date of this Explanatory Memorandum, the Directors considered that the incentive provides a cost-effective and efficient incentive as opposed to alternative forms of incentives (eg cash bonuses, increased remuneration). However, it must be recognised that there will be an opportunity cost to the Company, being the price at which the Company could issue the Options to a third party.

(4) **Directors' interests and other remuneration**

Mr Stephen Bizzell has a material personal interest in the outcome of Resolution 4, as it is proposed that the Options be issued to him (or his nominee) as set out in Resolution 4.

Excluding the Options proposed to be issued to Mr Bizzell, Mr Bizzell (and entities associated with him) holds 7,478,258 Shares and 4,223,400 Options. Please refer to the table below under the heading "Dilutionary Effect" which indicates the dilutionary impact on the current shareholders of the Company should Mr Bizzell exercise the Options issued to him under Resolution 4.

Other than the Options to be issued to Mr Bizzell (or his nominee) pursuant to Resolution 4, Mr Bizzell receives fixed remuneration of \$36,000 from the Company for his services as a Non-Executive Director of the Company. In addition, Mr Bizzell is a related party to Bizzell Capital Partners Pty Ltd (**BCP**), which subject to the successful completion of the IPO will be paid a cash fee of 1% of the total raised under the IPO and the issue of 1,000,000 Options for corporate advisory services provided to the Company in connection with the IPO. BCP will also be paid a cash fee of 4% of the total raised from clients of BCP and parties introduced by BCP who participate in the IPO.

(5) **Valuation**

The Options are not quoted on the ASX and as such have no ready market value. The Options each grant the holder a right to subscribe for one Share in the Company upon exercise of the Options and payment of the Exercise Price. Accordingly, the Options may have a present value at the date of their issue.

The Options may acquire future value dependent upon the extent to which the Shares exceed the exercise price of the Options during the term of the Options.

As a general proposition, options to subscribe for ordinary fully paid shares in a company have a value. Various factors impact upon the value of options including:

- the period outstanding before the expiry date of the options;

Explanatory Statement

- the exercise price of the options relative to the underlying price or value of the securities into which they may be converted;
- the proportion of the issued capital as expanded consequent upon exercise represented by the shares issued upon exercise (ie whether or not the shares that might be acquired upon exercise of the options represent a controlling or other significant interest);
- the value of the shares into which the options may be converted; and
- whether the options are listed (ie readily capable of being liquidated).

There are various formulae which can be applied to determining the theoretical value of options (including the formula known as the Black-Scholes Model option valuation formula).

The Company has undertaken a valuation of the Options, for the purposes of disclosing to Shareholders such information required to decide whether or not it is in the Company's interest to pass Resolution 4 and disclosing expenses in the Company's Financial Statements in accordance with AASB 2 Share Based Payments, using the Black-Scholes Model, which is the most widely used and recognised model for pricing options. The value of an option calculated by the Black-Scholes Model is a function of the relationship between a number of variables, being the price of the underlying Share at the time of issue, the exercise price, the time to expiry, the risk-free interest rate, the volatility of the Company's underlying Share price and expected dividends.

Inherent in the application of the Black-Scholes Model are a number of inputs, some of which must be assumed. The data relied upon in applying the Black-Scholes Model was:

- the exercise price of the Options being \$0.30
- the Share price at the time of issue of the Options being \$0.20;
- expiry date of 30 June 2017 for the Options proposed to be issued to Mr Bizzell;
- a volatility measure of 50%;
- a risk-free interest rate of 3.16%; and
- a dividend yield of nil.

Some relatively minor variables were included in the calculation to estimate the value of Options as "American style" options (being exercisable at any time prior to the stated expiry date). Theoretically, the Black-Scholes Model prices "European style" options (being exercisable only on the exercise date).

Based on the Black-Scholes Model valuation of the Options, the Company has adopted an indicative value for the Options of \$0.042 each.

On that basis, the value of the Options to be issued pursuant to Resolution 4 is \$20,918.

(6) **Any other information that is reasonably required by Shareholders to make a decision and that is known to the Company or any of its Directors**

There is no other information known to the Company or any of its Directors that is reasonably required by Shareholders to make a decision with respect to Resolution 4 save and except as follows:

Explanatory Statement

Opportunity Costs

The opportunity costs and benefits foregone by the Company issuing the Options to Mr Bizzell (or his respective nominees) is the potentially dilutionary impact on the issued Share capital of the company (in the event that the Options are exercised). Until exercised, the issue of the Options will not impact upon the number of Shares on issue in the Company. To the extent that upon their exercise the dilutionary impact caused by the issue of the Shares may be detrimental to the Company, if at all, this is more than offset by the advantages accruing from the Company securing the services of experienced and skilled directors on appropriate incentive terms.

It is also considered that the potential increase of value in the Options is dependent upon a relative increase in the value of the Company generally.

Taxation Consequences

No stamp duty will be payable in respect of the grant of the Options. No GST will be payable by the Company in respect of the grant of the Options (or if it is then it will be recoverable as an input credit).

AASB 2 "Share Based Payments" requires that these payments shall be measured at the more readily determinable fair value of the equity instrument. Under the accounting standards this amount will be expensed in the statement of comprehensive income. Where the grant date and the vesting date are different, the total expenditure calculated will be allocated between the two dates taking into account the terms and conditions attached to the instruments and the counterparties as well as management's assumptions about probabilities of payments and compliance with and attainment of the set out terms and conditions.

Dilutionary Effect

If all of the Options issued to Mr Bizzell under Resolution 4 are exercised by Mr Bizzell (or his respective nominees), the following will be the effect on their holdings in the Company and the dilutionary impact on the current Shareholders of the Company:

Shareholder	Share Capital post completion of the IPO⁽¹⁾⁽²⁾	% of Total Share Capital⁽¹⁾⁽²⁾	Shares held upon exercise of Options⁽¹⁾⁽²⁾⁽⁴⁾	% of Total Share Capital upon exercise of Options⁽¹⁾⁽²⁾⁽⁴⁾
Shareholders (other than Stephen Bizzell and his associated entities) ⁽³⁾	100,529,497	93.1%	100,529,497	92.6%
Stephen Bizzell (and his associated entities) ⁽³⁾	7,478,258 ⁽³⁾	6.9%	7,978,258	7.4%
Total	108,007,755	100%	108,507,755	100%

Notes:

- (1) Assuming that the minimum subscription is raised under the IPO and that 21,000,000 Shares are issued under the Prospectus.
- (2) Assuming that none of the 36,395,375 Options that will be on issue following completion of the IPO (based on a minimum subscription of \$4.2 million) are

Explanatory Statement

exercised, including the 4,223,400 Options that will be held by Mr Bizzell and his associated entities;

- (3) Assuming that Mr Bizzell (or his associates) do not subscribe for any Shares under the IPO;
- (4) Assuming that all of the Options issued to Mr Bizzell (or his respective nominee) pursuant to Resolution 4 convert into Shares in accordance with their terms.

(b) **Listing Rule 10.11**

Listing Rule 10.11 requires an entity to obtain the approval of shareholders for an issue of securities to a related party. Mr Bizzell, being a Director of the Company, is a related party. Accordingly, because the issue of the Options will result in the Company issuing securities to related parties, approval under Listing Rule 10.11 is required (subject to the Company being admitted to the official list of the ASX).

For the purposes of Listing Rule 10.13, the Company advises as follows:

- (1) the maximum number of Options to be issued to Mr Bizzell is 500,000 Options;
- (2) the Options are intended to be granted as soon as possible following the Meeting, but in any event, within one (1) month following the date of the Meeting;
- (3) the Options are being issued for nil consideration;
- (4) no funds are being raised by the Options.

In accordance with Listing Rule 7.2, as approval is being sought under Listing Rule 10.11, approval is not required to be obtained under Listing Rule 7.1.

Save as set out in this Explanatory Memorandum, the Directors are not aware of any other information that will be reasonably required by Shareholders to make a decision in relation to benefits contemplated by Resolution 4.

7. Resolution 5 – Approval to issue an additional 10% of the issued capital of the Company over a 12 month period pursuant to Listing Rule 7.1A

7.1 Introduction

Pursuant to Resolution 5 and subject to the Company being admitted to the official list of the ASX, the Company is seeking Shareholder approval to issue an additional 10% of its issued capital over a 12 month period pursuant to Listing Rule 7.1A. If passed, this Resolution will allow the Company to allot and issue up to the number of new Equity Securities calculated in accordance with Listing Rule 7.1A.2 (**Placement Securities**) each at an issue price of at least 75% of the volume weighted average price (**VWAP**) for the Company's Equity Securities in that class (calculated over the last 15 days on which trades in the Equity Securities are recorded immediately before the date on which the price at which the Placement Securities are to be issued is agreed, or if the Placement Securities are not issued within five trading days of that date, the date on which the Placement Securities are issued) (**Issue Price**).

This approval is sought pursuant to Listing Rule 7.1A. Under Listing Rule 7.1A, small and mid cap listed entities that meet the eligibility threshold and have obtained the approval of their ordinary shareholders by special resolution at the annual general meeting, are permitted to issue an additional 10% of issued capital over a 12 month period from the date of the annual general meeting (**Additional 10% Placement**). The Additional 10% Placement under Listing Rule 7.1A is in addition to the ability of the Company to issue 15% of its issued capital without

Explanatory Statement

shareholder approval over a 12 month period pursuant to Listing Rule 7.1. The Company may issue the Placement Securities to raise funds for the Company and as non-cash consideration (further details of which are set out below).

Funds raised from the issue of Placement Securities, if undertaken, would be applied towards the continued exploration and further technical studies on the Company's current assets and general working capital.

The Directors unanimously recommend that Shareholders vote in favour of Resolution 5.

7.2 Listing Rule 7.1A

(a) General

(1) Eligibility

An entity is eligible to undertake an Additional 10% Placement if at the time of its annual general meeting it has a market capitalisation of \$300 million or less and it is not included in the S&P/ASX300 Index.

For illustrative purposes only, assuming the minimum subscription amount of \$4.2 million is raised under the IPO, the Company's market capitalisation upon close of the IPO (which is scheduled to close on 17 October 2014) will be \$21.6 million based on the offer price under the IPO of \$0.20. The calculation of market capitalisation will be based on the closing price of the shares, on the last trading day on which trades in the shares were recorded before the date of the Annual General Meeting, multiplied by the number of Shares on issue (excluding restricted securities and securities quoted on a deferred settlement basis).

The Company is also not anticipated to be included in the S&P/ASX300 Index as at the time of the Annual General Meeting, however, it should be noted that the S&P/ASX300 Index is rebalanced twice a year in March and September. The Company is therefore an Eligible Entity and able to undertake an Additional 10% Placement under Listing Rule 7.1A.

In the event that the Company for any reason ceases to be an Eligible Entity after the Company has already obtained Shareholder approval pursuant to this Resolution 5, the approval obtained will not lapse and the Company will still be entitled to issue the Placement Securities.

(2) Special Resolution

Listing Rule 7.1A requires this Resolution 5 to be passed as a Special Resolution, which means that it must be passed by at least 75% of the votes cast by members entitled to vote on the Resolution. Pursuant to Listing Rule 7.1A, no Placement Securities will be issued until and unless this Special Resolution is passed at the Meeting.

(3) Shareholder approval

The ability to issue the Placement Securities is conditional upon the Company obtaining Shareholder approval by way of a Special Resolution at the Meeting.

(4) Formula for calculating Additional 10% Placement

Listing Rule 7.1A.2 provides that Eligible Entities that have obtained shareholder approval at an annual general meeting may issue or agree to issue,

Explanatory Statement

during the 12 month period after the date of the annual general meeting, a number of Equity Securities calculated in accordance with the following formula:

(A x D) - E

Where:

A is the number of ordinary securities on issue 12 months before the date of issue or agreement:

- (1) plus the number of fully paid ordinary securities issued in the 12 months under an exception in Listing Rule 7.2;
- (2) plus the number of partly paid ordinary securities that became fully paid in the 12 months;
- (3) plus the number of fully paid ordinary securities issued in the 12 months with approval of holders of ordinary securities under Listing Rules 7.1 or 7.4 (but note that this does not include an issue of fully paid ordinary securities under the entity's 15% placement capacity without shareholder approval); and
- (4) less the number of fully paid ordinary securities cancelled in the 12 months.

Note that "A" has the same meaning in Listing Rule 7.1 when calculating an entity's 15% placement capacity.

D is 10%.

E is the number of Equity Securities issued or agreed to be issued under Listing Rule 7.1A.2 in the 12 months before the date of the issue or agreement to issue that are not issued with the approval of shareholders under Listing Rules 7.1 or 7.4.

(b) Listing Rules 7.1 and 7.1A

The ability of an entity to issue Equity Securities under Listing Rule 7.1A is in addition to the entity's 15% capacity under Listing Rule 7.1.

Assuming the minimum subscription amount of \$4.2 million is raised under the IPO, upon close of the IPO (which is scheduled to close on 17 October 2014) the Company will have on issue 108,007,755 Shares. Provided that the number of Shares on issue remains the same, the Company would have the capacity to issue the following Equity Securities on the date of the Meeting:

- (A) 16,201,163 Equity Securities under Listing Rule 7.1; and
- (B) subject to Shareholder approval being obtained under Resolution 5, 10,800,775 Placement Securities under Listing Rule 7.1A.

The actual number of Placement Securities that the Company will have the capacity to issue under Listing Rule 7.1A will be calculated at the date of issue of the Placement Securities in accordance with the formula prescribed in Listing Rule 7.1A.2 (as described above).

(c) Information to be given to ASX – Listing Rule 7.1A.4

If Resolution 5 is passed and the Company issues any Placement Securities under Listing Rule 7.1A, the Company will give to ASX:

Explanatory Statement

- (1) a list of allottees of the Placement Securities and the number of Placement Securities allotted to each (this list will not be released to the market); and
- (2) the following information required by rule 3.10.5A, will be released to the market on the date of issue:
 - details of the dilution to the existing holders of Shares caused by the issue;
 - where the Shares are issued for cash consideration, a statement of the reasons why the Company issued the Shares as a placement under rule 7.1A and not as (or in addition to) a pro rata issue or other type of issue in which existing Shareholders would have been eligible to participate;
 - details of any underwriting arrangements, including any fees payable to the underwriter; and
 - any other fees or costs incurred in connection with the issue.

7.3 Specific information required by Listing Rule 7.3A

(a) Minimum price of securities issued under Listing Rule 7.1A - Listing Rule 7.3A.1

Pursuant to and in accordance with Listing Rule 7.1A.3, the Placement Securities issued pursuant to approval under Listing Rule 7.1A must have an issue price of not less than 75% of the VWAP for the Equity Securities over the 15 trading days immediately before:

- (1) the date on which the price at which the Placement Securities are to be issued is agreed; or
- (2) if the Placement Securities are not issued within five trading days of the date in paragraph (1) above, the date on which the Placement Securities are issued.

The Company will disclose to the ASX the issue price on the date of issue of the Placement Securities.

(b) Risk of economic and voting dilution - Listing Rule 7.3A.2

As provided by Listing Rule 7.3A.2, if Resolution 5 is passed and the Company issues the Placement Securities, there is a risk of economic and voting dilution to the existing Shareholders. Assuming the minimum subscription amount of \$4.2 million is raised under the IPO, upon close of the IPO (which is scheduled to close on 17 October 2014) the Company will have on issue 108,007,755 Shares. Should the number of Shares on issue remain the same, the Company could issue 10,800,775 Placement Securities on the date of the meeting (however, it is important to note that the exact number of Placement Securities which may be issued will be calculated in accordance with the formula contained in Listing Rule 7.1A.2, details of which are set out above). Any issue of Placement Securities will have a dilutive effect on existing Shareholders.

There is a specific risk that:

- (1) the Market Price for the Company's Equity Securities may be significantly lower on the date of the issue of any Placement Securities than it is on the date of the Meeting; and

Explanatory Statement

- (2) the Placement Securities may be issued at a price that is at a discount to the Market Price for the Company's Equity Securities on the issue date, which may have an effect on the amount of funds raised by the issue or the value of the Placement Securities.

As required by Listing Rule 7.3A.2, Table 1 below shows the potential economic and voting dilution effect, in circumstances where the issued share capital has doubled and the Market Price of the shares has halved. Table 1 also shows additional scenarios in which the issued share capital has increased (by both 50% and 100%) and the Market Price of the shares has:

- (1) decreased by 50%; and
- (2) increased by 100%.

Table 1

Issued Capital	Share	50% decrease in Market Price \$0.10		Current Market Price \$0.20		100% increase in Market Price \$0.40	
		10% Voting Dilution	Capital Raised	10% Voting Dilution	Capital Raised	10% Voting Dilution	Capital Raised
Present Issued Share Capital = 108,007,755 Shares		10,800,775	\$1,080,077	10,800,775	\$2,160,155	10,800,775	\$4,320,310
50% Increase in Share Capital = 162,011,633 Shares		16,201,163	\$1,620,116	16,201,163	\$3,240,233	16,201,163	\$6,480,465
100% Increase in Share Capital = 216,015,510 Shares		21,601,551	\$2,160,155	21,601,551	\$4,320,310	21,601,551	\$8,640,620

Assumptions and explanations

- The table assumes that there are 108,007,755 Shares on issue, which includes the 21,000,000 Shares to be issued on a minimum raise scenario upon completion of the IPO.
- Assumes a Market Price of \$0.20, which is based on the IPO price of \$0.20 per Share.
- The above table only shows the dilutionary effect based on the issue of the Placement Securities (assuming only Shares are issued), and not any Shares issued under the 15% capacity under Listing Rule 7.1.
- The 10% voting dilution reflects the aggregate percentage dilution against the issued Share capital at the time of issue.
- The Company issues the maximum number of Placement Securities.
- The issue price of the Placement Securities used in the table is the same as the Market Price and does not take into account the discount to the Market Price (if any).

(c) Final date for issue – Listing Rule 7.3A.3

As required by Listing Rule 7.3A.3, the Company will only issue and allot the Placement Securities during the 12 months after the date of this Meeting which the Company anticipates will end on 26 November 2015. The approval under Resolution 5 for the

Explanatory Statement

issue of the Placement Securities will cease to be valid in the event that Shareholders approve a transaction under Listing Rule 11.1.2 (a significant change to the nature or scale of activities of the Company) or Listing Rule 11.2 (the disposal of the main undertaking of the Company) before the anniversary of the Annual General Meeting.

(d) **Purpose – Listing Rule 7.3A.4**

As noted above, the purpose for which the Placement Securities may be issued include to raise funds for the Company and as non-cash consideration (further details of which are set out below). Funds raised from the issue of Placement Securities, if undertaken, would be applied towards the continued exploration and further technical studies on the Company's current assets and general working capital.

(e) **Shares issued for non-cash consideration - Listing Rule 7.3A.4**

The Company may issue Placement Securities for non-cash consideration, such as the acquisition of new assets or investments. If the Company issues Placement Securities for non-cash consideration, the Company will release to the market a valuation of the non-cash consideration that demonstrates that the issue price of the Placement Securities complies with Listing Rule 7.1A.3.

(f) **Company's allocation policy - Listing Rule 7.3A.5**

The Company's allocation policy is dependent on the prevailing market conditions at the time of any proposed issue of the Placement Securities. The identity of the allottees of Placement Securities will be determined on a case-by-case basis having regard to a number of factors including but not limited to the following:

- (1) the methods of raising funds that are available to the Company including, but not limited to, rights issue or other issue in which existing shareholders can participate;
- (2) the effect of the issue of the Placement Securities on the control of the Company;
- (3) the financial situation and solvency of the Company; and
- (4) advice from corporate, financial and broking advisers (if applicable).

The allottees of the Placement Securities have not been determined as at the date of this Notice but may include existing substantial Shareholders and new Shareholders who are not related parties or associates of a related party of the Company.

Furthermore, if the Company is successful in acquiring new assets or investments for which Placement Securities are issued as consideration, it is likely that the allottees of some of the Placement Securities will be the vendors of the new assets or investments.

(g) **Company not previously obtained shareholder approval under listing rule 7.1A**

Listing Rule 7.1A came into effect on 1 August 2012 and the Company has not previously obtained Shareholder approval under Listing Rule 7.1A.

(h) **Voting Exclusion Statement**

A voting exclusion statement is included in this Notice. At the date of the Notice, the proposed allottees of any 10% Securities are not as yet known or identified. In these circumstances (and in accordance with the note set out in Listing Rule 14.11.1 relating to Listing Rules 7.1 and 7.1A), for a person's vote to be excluded, it must be known that that person will participate in the proposed issue. Where it is not known who will participate in the proposed issue (as is the case in respect of the 10% Securities),

Explanatory Statement

Shareholders must consider the proposal on the basis that they may or may not get a benefit and that it is possible that their holding will be diluted and there is no reason to exclude their votes.
